On 10-10-40 detectives attached to G.B.H.Q. C.I. whilst cooperating with the Japanese Gendarmerie raided a house No. 4 Lane 429 Amiral Bayle F.C. where it was believed that members of a Pro Chungking Assassination Group known as "Blue Shirts" were residing.

No arrests were made but a number of firearms and a quantity of ammunition were seized. Amongst these firearms, two Mausers 7.63 were found to have been used in the assassination of the Capt. Tan Shao Ling (谭绍陵) subject.

Although arrests were made at other places during the course of enquiries, none could be connected with or give any information relative to the remaining still at large.

The pistols seized are believed to belong to one Wang Tsung, an active member of the Blue Shirt organization who has not yet been revealed.
